

## Case Study for State Transition Technique-

Find out minimum 5 images from browser and identify state transition techniques.

### 1. Switch ON/OFF System

**States:** Initial State → OFF → ON → Final State

1. **Valid Transition:** Switch On → OFF → ON
2. **Valid Transition:** Switch Off → ON → OFF
3. **Final Transition:** Shut Down → ON → Final State

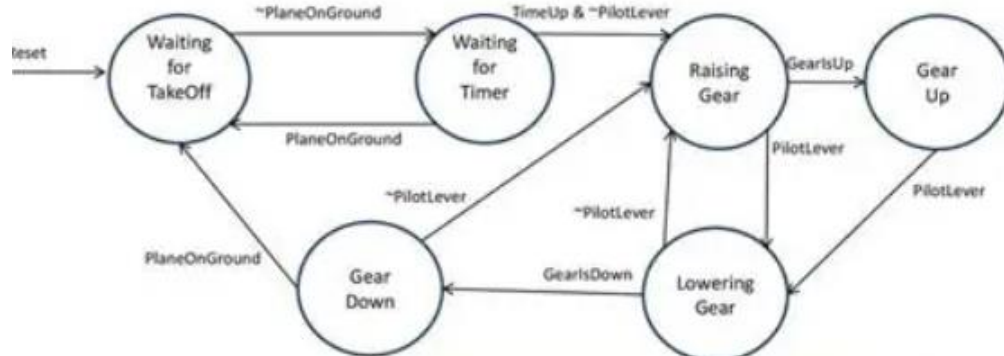

### 2. Local Cancer Cell State Transition

**States:** Local Cancer Cell → Metastases → Dead

1. **Valid Transition:** Progress to Metastases → Local Cancer Cell → Metastases
2. **Valid Transition:** Survive → Metastases → Metastases
3. **Final Transition:** Die → Local Cancer Cell / Metastases → Dead

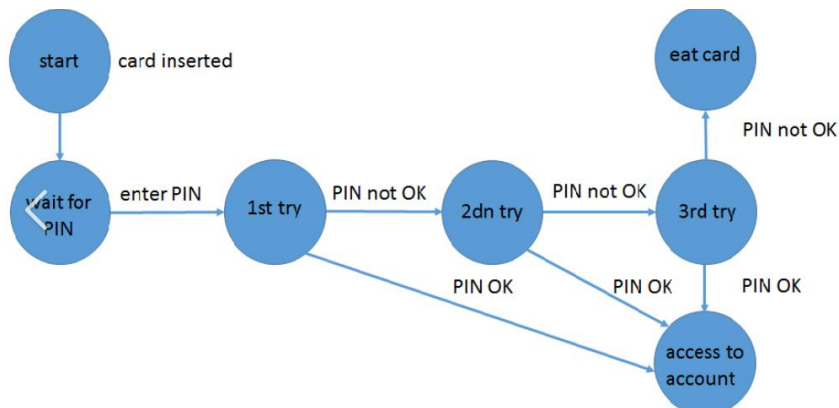

### 3. Aircraft Landing Gear State Transition

**States:** Waiting for Take Off → Waiting for Timer → Raising Gear → Gear Up → Lowering Gear → Gear Down

1. **Valid Transition:** PlaneOnGround → Waiting for Take Off → Waiting for Timer
2. **Valid Transition:** TimeUp & PilotLever → Waiting for Timer → Raising Gear → Gear Up
3. **Valid Transition:** PilotLever → Gear Up → Lowering Gear → Gear Down
4. **Final Transition:** PlaneOnGround → Gear Down → Waiting for Take Off

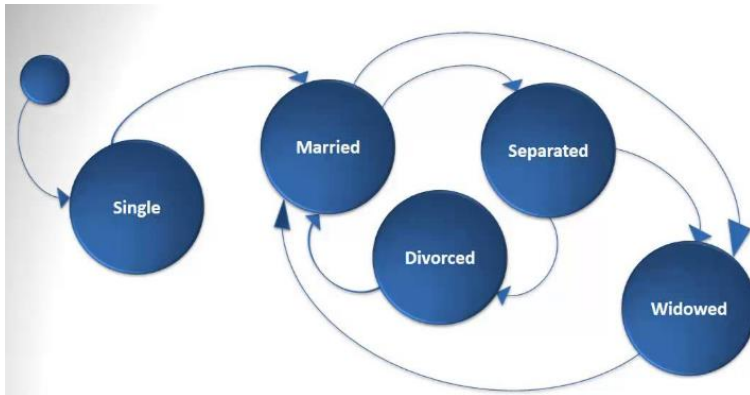

### 4. ATM PIN Authentication

**States:** Start → Wait for PIN → 1st Try → 2nd Try → 3rd Try → Access to Account / Eat Card

1. **Valid Transition:** PIN OK → 1st Try / 2nd Try / 3rd Try → Access to Account
2. **Invalid Transition:** PIN not OK → 1st Try → 2nd Try → 3rd Try
3. **Final Transition:** PIN not OK at 3rd Try → Eat Card

## 5. Marital Status State Transition

**States:** Initial State → Single → Married → Separated → Divorced → Widowed

1. **Valid Transition:** Marriage → Single → Married
2. **Valid Transition:** Separation → Married → Separated
3. **Valid Transition:** Divorce → Separated → Divorced
4. **Final Transition:** Death of spouse → Married / Separated → Widowed
